

Minutes of meeting 29.09.2016

1. The consultation has been submitted to the examiner and is open to the community for consultation. Any new building needs to be in the settlement boundary. To object, we can look to the Character assessment to see if there is anything in there that can support the objections. e.g. flooding, drainage and a case can then be built.
2. The final version of the flyer was agreed. We may be able to get these by next Monday.
3. We need to check with Gary as to when the next version of the newsletter is coming out.
4. We also need to ask Gary to put it on the website.

5. Ideas for the event -

List of current features

Modes of transport

Where did people work

How did they get to work

What do people like about the village

How can Alvington be improved

Build up a story of Alvington

We need ideas of local stories from villagers, recollections of flooding etc that may not be documented.

We need information on what we think any new houses should look like.

We need demographics of village and what local transport is available at the moment.

6. At the end the villages will complete a questionnaire. All questionnaires must have logo on. Kate will supply the pens.
7. We will need a sign in sheet to get an idea of numbers that attended.
8. Maps required – new allocations plan and a large map from the district council.#
9. Kate to obtain a housing needs survey.
10. Kate to supply us with some example questions.
